HABTECH

Correctional Center

True Security Integration

Integrating High Performance Security Systems on a single Platform Since 1991

・ Correctional Facilities ・ Courthouses & Police Stations ・ Long-Term Care Facilities ・ Hospitals & Healthcare ・ Corporate Offices ・ Commercial Buildings ・ Industrial Complexes ・ Government Offices & Buildings ・ Financial & Educational Institutions ・ Public Transportation ・ Manufacturing Plants ・

Habtech develops, manufactures and provides support for a wide range of integrated systems, products and software for security, communications and industrial control applications.

ST2000 Pro Security Management System

The ST2000 Pro is our most advanced version from The Smart Touch Family® of security and building automation products.

The LONWORKS® technology based ST2000 Pro Security Management Systems brings intelligent distributed peer to peer control to security applications through easy-to-use, reliable hardware and software features.

With its flexible system architecture and with Habtech's integration capabilities, the ST2000 Pro is ideal for new installations and for retrofits of existing buildings in Correctional, Institutional and Commercial Markets.

All security systems are integrated into the same HMI giving the user access to door controls, cameras, intercoms, alarms, and more - simplifying the learning curve and freeing up workspace.
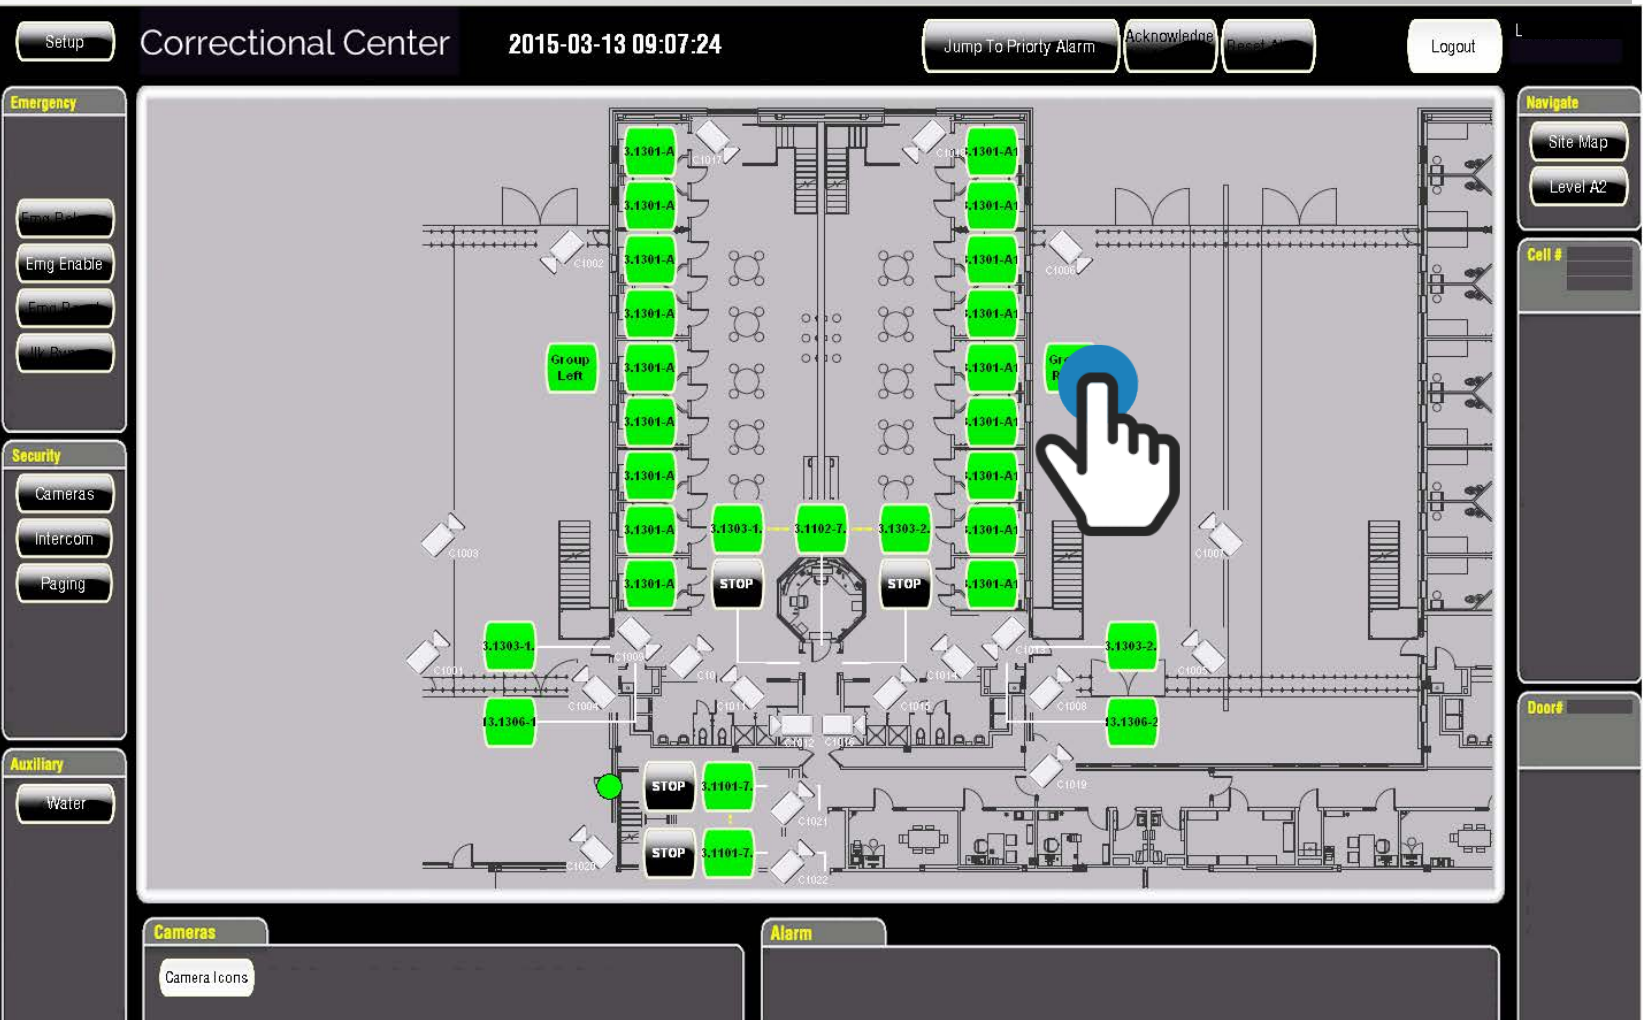

Habtech also integrates with Wonderware Software Management System and supports both LONWORKS® based controllers as well as PLC hardware.

Features

- Multi-Vendor Product Integration
- Open System Architecture
- Ability to remotely control your buldings
- Distributed Intelligent Controllers and Consoles
- Custom Graphical User Interface
- Touch Screen Interface
- Custom Activity & History Reports
- Flexible System Architecture
- Ease of Installation, Operation and Maintenance
- High Reliability and Availability
- Suitable for Retrofits and New Installations
- LONWORKS® and Windows Technologies
- Easily Upgradeable and Expandable
- Operates as stand-alone system or multiple client architecture (LAN, WAN)
- Full system redundancy
- Built-in diagnostics for automatic fault detection, reporting and restoration

## ST2000 Pro Security Management System

ST2000 Pro Security Management System

Habtech products incorporate the open standard of LONWORKS® technology and offer customers the economies and convenience of systems interoperability and multi-vendor product integration. Our product development strategy of incorporating distributed systems architectures, standards-based technologies, user-friendly operator interfaces and ease of installation and maintenance, ensures maximum flexibility in in meeting current needs, while providing an upward migration path to accommodate future growth.

Habtech can support various manufacturers including but not limited to:

Access Control	Intercom & PA	Building Automation & Lighting	Fire Alarm
Allen-Bradley	Aiphone	General Electric	Notifier by Honeywell
DSC	Ascom	Cooper Ligting	Siemens
Genetec	Jeron	FifthLight	Simplex
Johnson Controls	Telecor	Watt Stopper	Edwards
Omron	TOA	Lutron	Mircom
Kantech	Harding	Honeywell	Advance
Wonderware	Axis Communications		
RBH			
Software House			
Lenel			
AMAG			
PCSC			
Hurricane Systems			

CCTV	Perimeter Intrusion & Detection	Nurse Call & Patient Wandering	Elevator Controls
Axis Communications	Senstar	Centrack	Otis
Gentec	Southwest Microwave	Stanley Healthcare	Kone
Avigilon			ThyssenKrupp
Aimetis			
Milestone			
Panasonic	Duress Alarm	Telephone Entry System	
Pelco			
WatchNet	Bosch Security	KTES	
Samsung	Systems		

HABTECH

Mike Godara, vice-president, and Don Connor, general manager, at Habtech's main facility in Mississauga, Ont.

Habtech was founded by Rudy Habljak in 1991. Since its inception, Habtech demonstrated a keen understanding of the new business and consumer realities, building advanced technologies into high quality products and producing them in an environment of high efficiency and low overhead.

Over twenty years later, Rudy's vision of reliable high performance security systems continue to guide our beliefs, actions and ambitions.

Located in Mississauga, Ontario and owned by Vipond Inc. since 2009, Habtech remains the leader in reliable integrated security systems.
