# TSS100 GUARD TOUR STATION

The TSS100 Guard/Watch Tour Station is a member of The Smart Touch® Product Family and is fully compatible with Habtech ST2000 Security Management Systems.

These stations are designed for applications where non-authenticated guard/watch tour control is required.

FEATURES

• Connects to the SDC210 Single Door Controller for easy ST2000 software integration

• Ideal for applications in correctional institutions

• Stainless steel face plate with durable piezoelectric pressure switch and LED indicator
